3 Basic orientation in searching page

The screenshot shows the search interface of the CTK INFOBANK. On the left is a 'News Selection' sidebar with filters for Region, Services, Date, and News types. The main area features a search bar with a dropdown menu, a search button, and a 'By date descending' sorting option. Below the search bar, there are filters for 'Items found: 249', 'Last 30 days', '2 Document types', and 'Other filters'. A list of news items is displayed, each with a checkbox, a headline, and a timestamp. Red arrows point to various elements: the search bar dropdown, the search button, the 'HELP' button, the 'FULL-TEXT SEARCH' button, and the 'SITE OF CURRENT PRODUCTION' button.

4 Operation with selected items

This close-up screenshot focuses on the search bar and the 'CHECKED ITEMS' section. The search bar includes a dropdown menu, a search button, and a 'By date descending' sorting option. Below the search bar, there are filters for 'Document types' and 'Other filters'. The 'CHECKED ITEMS' section shows '0' items. Below this, there are two buttons: 'Multiple view' and 'To box'. Red arrows point to the 'By date descending' sorting option and the 'To box' button. A red box labeled 'ACTION WITH SELECTED ITEMS' is positioned below the 'To box' button.
